

Board Approval for Gary Patterson

East Greenwich, RI 02818

February 28 2006

February 28, 2006

FOR IMMEDIATE RELEASE

**Society for Advancement of Consulting
Names Gary Patterson of Wellesley, MA
As Board Approved**

The Society for Advancement of Consulting (SAC) has approved another member to achieve the rare SAC® Board Approved designation. This approval means that the consultant has worked in a specialized area for a considerable length of time; has provided detailed, documented evidence of success directly from clients in that specialty; and has conformed to the Code of Ethics of the society, serving as a thought leader and exemplar in the profession in general and their specialty in particular.

The individual is:

Gary Patterson, CEO of FiscalDoctor, Inc. in Wellesley, MA. He has achieved Board Approval as Trusted Advisor for Growth Companies.

SAC membership consists of less than 1% of consultants worldwide due to stringent membership requirements, and less than 3% of SAC members have achieved Board Approval status.

"This is a tough position to obtain, at the height of one's profession, and is a great criterion to apply when clients are considering consultants," says SAC CEO Alan Weiss, Ph.D. "It's difficult to choose the right resources in certain areas, and our Board Approval is evidence, not promotion, but real instances of consistent success in delivering client results." The SAC office will serve as a reference point and share that evidence with any clients seeking more information on Board Approved members.

SAC is an international association of consulting professionals who subscribe to an industry code of ethics and have provided evidence of significant consulting results among their clients. For more information, please go to <http://www.consultingsociety.com>, write to info@summitconsulting.com, or call 800/825-6153 (401/886-4097).
