FiscalDoctor™ offers four levels of service through Fiscal Clinic, of which clients may access one or all four service areas, depending upon their level of need. These include:

Checkup — A high level overview to identify immediate issue(s) to be resolved or to help a client better understand his or her company's current financial position. This service includes five key recommendations for financial and operational fitness.

Diagnosis — A thorough analysis and review of financials and systems to identify risks and opportunities. Ten strategic recommendations are included to provide a framework for better managing the challenges inherent in growing a company.
