Dramatically Accelerate Correct Fiscal Leadership Decisions!®

My business does not accurately know who its 10 most profitable customers are

My company does not know how changes at one of our top 10 customers would affect our own bottom line

My business occasionally capitalizes expenses that create assets with questionable recorded value.

My business has an asset it would be better off selling at a loss to free up cash to pursue a more promising opportunity

My business paints an overly optimistic picture of our company among customers, vendors, or financing sources.
